

Dono Terms of Service · Dono

Dono Terms of Service

Version 3.0 · Effective 7 August 2026 **Document type:** Contractual
Supersedes version 2.3 (6 August 2026) and all earlier versions.

Beta scope: Society Campaigns only. Individual Student Campaigns are a future release and cannot currently be created or donated to.

Part 1 — Introduction

1. Who we are, and how these Terms fit together

1.1 Dono is a trading name of **Amrit Kaur Rooprai**, a sole trader. "Dono", "we", "us" and "our" mean Amrit Kaur Rooprai trading as Dono. Dono is not a company. The sole trader is the contracting party, the data controller and the person accountable for the Platform. Other people work on the Platform under written agreements with her that cover confidentiality, intellectual property, data handling, security and offboarding.

1.2 Our United Kingdom business address is **37 St Giles', Oxford OX1 3LD**. Our single contact address for everything — questions, complaints, appeals, reports, privacy requests and legal notices — is joindono.team@gmail.com. We operate one public support address; we do not operate separate inboxes by subject.

1.3 These Terms of Service (the "**Terms**") govern your use of the Platform when you create an account, make or attempt to make a Donation, submit or operate a Campaign, act for a Society, or otherwise expressly accept them. Browsing a publicly accessible page does not by itself make you a party to these Terms.

1.4 The additional contractual documents that apply depend on what you do:

(a) create an account → the **Community Guidelines** apply to your account, content and conduct; (b) make or attempt to make a Donation → the **Donor Terms** and the **Refund and Dispute Policy** apply to that Donation, whether or not you hold an account; (c) submit or operate an individual Campaign → the **Student Campaign Terms**, the **Refund and Dispute Policy** and the **Community Guidelines** apply. **Individual Campaigns are not available at present and the Student Campaign Terms are not operative — see clause 4.8;** (d) submit or operate a Campaign for a Society → the **Society Campaign Terms**, the **Refund and Dispute Policy** and the **Community Guidelines** apply to the Society and to its Responsible Representative.

Roles are cumulative. A Campaign Owner who donates to another Campaign also accepts the Donor Terms for that Donation.

1.5 Before you take any of those actions we identify the documents that apply and ask you to accept them by an active, unticked step. Terms relevant to another capacity apply only when you accept them.

1.6 The **Privacy Notice**, **Cookie Notice** and **Verification Notice** are information. They do not form part of your contract and do not create contractual rights or obligations, except where the law provides otherwise. We remain bound by our legal obligations whether or not those notices are contractual.

1.7 **Which document governs which subject.** Precedence follows subject matter, not document rank:

Subject	Governing document
Refunds, refund decisions, disputes, chargebacks and surplus	Refund and Dispute Policy
Content, conduct, moderation, reporting, complaints and appeals	Community Guidelines
Personal data, transparency and your data-protection rights	Privacy Notice
Cookies and similar technologies	Cookie Notice
The obligations of an individual student Campaign Owner	Student Campaign Terms
The obligations of a Society and its Responsible Representative	Society Campaign Terms
The obligations of a Donor	Donor Terms
Everything else, and anything not expressly governed above	These Terms

Where a subject-specific document expressly governs an issue, it prevails over these Terms on that issue. These Terms fill every gap. A separate institution agreement does not impose obligations on you unless you are a party to it or expressly accept the relevant provision, and does not reduce your rights unless you expressly accept the change.

1.8 **Age.** You must be **18 or over** to create an account, to create or operate a Campaign, to act for a Society, to post a comment, and **to make a Donation**. Browsing is open to everyone. Account and Donor age is declared and confirmed, not independently verified. **For a Campaign Owner or Responsible Representative, the date of birth returned by the Payment Provider's identity check is the final age gate:** a missing, inconsistent or under-18 result blocks creation, publication and receipt of Donations unless corrected through the documented review route. Because public pages can still be viewed by people of any age, we operate the child-safety measures described in the Community Guidelines.

1.9 You must comply with all laws that apply to you.

2. How the contract is made, versions and your durable copy

2.1 Contracts are formed electronically. Before you accept, the relevant documents are presented in English, you can review a summary screen, and you can correct input errors before confirming. Acceptance occurs when you click the clearly labelled acceptance or payment button.

2.2 **Every document has a permanent version number.** Once published, a version is never overwritten or deleted. **The version in force at the time you accepted it governs that transaction:** each Campaign and each Donation stays bound to the versions applicable when it was created.

2.3 **Acceptance record.** For every acceptance we record your user or guest identifier, your role, the Campaign where relevant, the version of each document accepted, the acceptance event and the timestamp. Guest Donors are recorded on the same basis as account holders.

2.4 **Durable copy.** After you accept we show an on-screen confirmation of the transaction and the applicable document versions, and we email you the same information with either the applicable documents attached or a permanent link to those exact archived versions. That copy remains available from your account.

2.5 **Notices and time.** A "**Working Day**" is a day other than a Saturday, Sunday or public holiday in England. Times are UK local time. A notice sent by email or shown in your account is treated as received **on the next Working Day after it is sent or shown**, unless you show that it was not delivered or we are aware that delivery failed. Where we must act immediately to protect people, funds or legal compliance, the action takes effect when applied; **any period for you to respond or appeal starts only when you have actually been notified of it.** "**Promptly**" means within two Working Days unless a different period is stated. A request or submission is "**complete**" once we have the information reasonably required to act on it; where we need more, we will normally identify everything we reasonably require in a single request.

3. Definitions

3.1 In these Terms and the other contractual documents:

- "**Campaign**" — a fundraising page created on the Platform by a Campaign Owner.
- "**Campaign End Date**" — the funding-closing date, after which no further Donations may be made.
- "**Campaign Owner**" — the Student, or the Society, that owns and operates a Campaign and for whose benefit the funds are raised.
- "**Closure Statement**" — the final statement required by clause 10 to conclude a Campaign.
- "**Connected Account**" — a Stripe connected account established through the Platform to receive Donations.

- **"Content"** — any text, image, video, document or other material submitted to or displayed on the Platform.
 - **"Course End Date"** — the date a Student's course of study ends, which may be earlier than any graduation ceremony.
 - **"Donation"** — a conditional contribution made through the Platform in support of a Campaign, as described in clause 12.
 - **"Donor"** — a person who makes, or attempts to make, a Donation.
 - **"Institution"** or **"Recognised Institution"** — a UK higher-education institution Dono has decided to recognise. Dono does not recognise schools or any institution whose students are predominantly under 18.
 - **"Material Change"** — has the meaning in clause 14.
 - **"Ownership Statement"** — the statement required by clause 7.1 identifying who will legally own the funded property or output.
 - **"Payment Provider"** — Stripe, or any replacement payment provider we notify to you.
 - **"Recipient"** — the holder of the Connected Account that receives a Donation. **The Recipient is expected to be the Campaign Owner**, or, where the Society is unincorporated, the Responsible Representative holding and controlling the account **for the Society and not personally** (clause 15.2).
 - **"Responsible Representative"** — for a Society Campaign, the single named individual registered as authorised to act for the Society, who creates and manages the Campaign, contracts with Dono in the capacity described in the Society Campaign Terms, and holds or controls the Connected Account on the Society's behalf.
 - **"Platform"** and **"Services"** — the Dono website, applications and related services.
 - **"Project"** — the activity, purchase or purpose a Campaign states it will fund.
 - **"Secondary Contact"** — the named second officer registered for a Society Campaign who may take over as Responsible Representative. The Secondary Contact is **not** a second approver.
 - **"Society"** — a student society, club or similar non-commercial group associated with a Recognised Institution, typically an unincorporated association. Where the Society has no separate legal personality, references to the Society include its Responsible Representative acting on its behalf.
 - **"Student"** — an individual who satisfies the eligibility requirements in clause 4 and the Student Campaign Terms.
 - **"Surplus Funds"** — any amount raised that cannot reasonably be used for the stated campaign purpose, as described in clause 14.
 - **"User"** — a person who creates an account, makes a Donation, submits Content or otherwise expressly accepts these Terms. **"Visitor"** — a person who only views publicly accessible pages, and who is not a party to these Terms.
-

Part 2 — The Platform

4. What Dono does; eligibility; geographic scope

4.1 Dono is a technology and donation-crowdfunding platform for students at Recognised Institutions, a host for Campaign pages and user Content, and the operator of a student-eligibility check, content moderation and an internal refund process. Dono is **not** a bank, escrow provider, payment processor, investment platform, charity, university, guarantor of any Campaign, or provider of legal, tax or financial advice.

4.2 **Dono does not receive, hold, safeguard or control donation funds, and holds no payment account.** Donations are processed by the Payment Provider using Stripe Connect **direct charges** and are paid into the Recipient's Connected Account. The Recipient legally receives the payment. Dono operates no pooled fund, community fund, escrow or platform-held balance, and will not do so unless and until it holds any authorisation required for that activity. Dono cannot hold, delay, divert or recall a payout. The single, limited exception to Dono's lack of control over money is the refund mandate in clause 13, under which Dono may **instruct the Payment Provider to reverse a charge** already created through the Platform — Dono still never receives or holds the money.

4.3 Dono is not affiliated with, sponsored by or endorsed by any university, college or society merely because it is listed on the Platform, a student uses its email address, Dono checks a student's eligibility, or a Campaign appears under its name. Any partnership or endorsement exists only where expressly stated and supported by a written arrangement.

4.4 **Geographic scope.** Campaign Owners and Responsible Representatives must be currently enrolled at a Recognised Institution but need not be physically present in the United Kingdom; a year abroad, placement, field trip or other temporary period overseas does not by itself end eligibility. A person opening a Connected Account in their own name must provide a valid UK address and satisfy the Payment Provider's UK account and onboarding requirements. **Donors may be located outside the United Kingdom** where the Payment Provider supports the payment and where sanctions and other legal restrictions permit. Dono may restrict access or Donations where law, sanctions, Payment Provider requirements or documented risk requires.

4.5 To create or operate a Campaign or act as Responsible Representative, a Student must: (a) be at least 18 under the verified-DOB rule in clauses 1.8 and 6.3; (b) be currently enrolled at a Recognised Institution; (c) hold and verify control of a valid university email address; (d) where they hold the Connected Account, provide a valid UK address and complete the Payment Provider's UK onboarding in their own name; and (e) remain eligible while the Campaign is active.

4.6 **Currency.** All Campaigns, targets, budgets and Donations are denominated, charged and settled in pounds sterling. A Donor using a non-UK card may still donate; their card issuer converts the amount at its own

rate and may apply its own charge, which is outside Dono's control and is not received by Dono or the Campaign Owner.

4.7 Institutions currently recognised. Dono recognises the **University of Oxford**. **An account used to create or operate a Campaign, or to act for a Society, must be verified against an ox.ac.uk address or a recognised college subdomain. A donor account may be opened with any email address** (clause 5.1A). We update this clause as the recognised list changes.

4.8 Campaign types available during beta. Beta supports **Society Campaigns only**. An eligible Society member creates the Campaign under the Society's approval and Responsible Representative process, and Donations go to the applicable Society Connected Account. Individual Campaigns are a planned later release; they cannot currently be created, published or donated to, and the Student Campaign Terms are not presented as operative beta terms. The Student Campaign Terms continue to govern the personal conduct obligations expressly incorporated by the Society Campaign Terms.

Part 3 — Accounts

5. Creating an account

5.1 You must be at least 18 to create an account. You must give accurate, current and complete information and keep it up to date. Providing false information is a breach of these Terms.

5.1A Two kinds of account.

(a) A **donor account** may be created by anyone aged 18 or over, using **any email address**. It allows you to donate, follow Campaigns and Societies, manage your giving and post comments where clause 17 permits. (b) A **student account** additionally requires you to verify control of an address at a Recognised Institution (clause 6). Only a student account may be used to create or operate a Campaign, to create a Society, or to act as a Responsible Representative.

Your account type is fixed when you first choose it and cannot afterwards be changed to a student account without a valid institutional address.

5.2 You are responsible for keeping your credentials secure and for activity under your account, and must tell us promptly if you believe your account has been accessed without authorisation. **You are not responsible for activity to the extent that it results from a failure on our part, or occurs despite your reasonable care and your prompt notice to us.**

5.3 You may not create multiple accounts, or an account on behalf of another person, without our permission.

6. Eligibility checks

6.1 To create a Campaign or a Society, a Student must complete **two separate checks**: a **student-status check** carried out by Dono, and an **identity check** carried out by the Payment Provider. Both must be complete before a Campaign can be created, published or receive Donations.

6.2 **The student-status check — carried out by Dono.** Dono confirms that the applicant controls an email address at a Recognised Institution, by sending a one-time code or link to that address and requiring it to be returned. **Dono does not collect, process or store a student card, a student-card image or a student number.** Dono does not contact the Institution to confirm affiliation. Dono aims to complete any manual element within seven Working Days but does not guarantee this.

6.3 **The identity check — carried out by the Payment Provider.** The applicant completes an identity check operated by the Payment Provider's identity service, using a **government-issued identity document and a face scan. Those are submitted to, and held by, the Payment Provider as an independent data controller. Dono never receives, sees or stores the document or the face scan.** Dono receives and records only the outcome of the check and the **verified name and date of birth** it returns. Those records are visible only to Dono administrators. The Verification Notice and the Privacy Notice explain this in full.

The verified date of birth is the final creator age gate. Creation, publication and receipt of Donations remain blocked if the result is missing, inconsistent with the account or shows an age under 18. A user may ask Dono to review an apparent error, but Dono does not manually override an under-18 result without corrected information from the Payment Provider.

6.4 **Connected Account onboarding.** The holder of the Connected Account that receives Donations separately completes the Payment Provider's own identity, know-your-customer and eligibility checks, under the Payment Provider's terms and for its own regulatory purposes. Dono does not control those checks and does not receive the documents collected for them.

6.5 **Reverification.** Control of the university email address is reverified each October and at Campaign creation. A User verified within the three months before a scheduled reverification is not reverified until the following cycle.

6.5A Dono may request further information at any time. Unless a different period is stated you must respond within **ten Working Days**, and we will extend that period on reasonable request where you are unwell, on holiday, sitting examinations or otherwise genuinely unable to respond. Shorter periods apply only where there is a genuine and immediate risk to people, funds or legal compliance.

6.5B Eligibility expires on graduation or departure. Where the Course End Date falls before the graduation ceremony, the Course End Date governs. Expiry does not extinguish continuing obligations under clause 31.

6.6 No public status indicators. Dono does **not** display verification badges, ticks, shields, or any "verified", "validated", "eligibility checked", "trusted" or similar status on Campaign pages or at checkout, and does not present any interface that could reasonably be read as endorsing, authenticating or guaranteeing a Campaign. Eligibility and compliance checks are internal operational processes and are not surfaced to Users unless the law requires it.

Part 4 — Campaigns

7. Creating a Campaign

7.1 Every Campaign must include: a name; a clear explanation of what is being funded and why; an itemised budget with accurate estimated costs; purchase links where applicable; a funding target; a Campaign End Date; an expected expenditure date; supporting media where appropriate; an **Ownership Statement** identifying who will legally own the funded property or output; and a planned update schedule.

7.2 By submitting a Campaign the Campaign Owner agrees to: give accurate information; use funds only for the stated purpose; submit evidence of expenditure; publish updates; submit a Closure Statement; notify Material Changes before implementing them; and cooperate with Dono and the Payment Provider. The Campaign Owner warrants that the Ownership Statement is accurate and that they have authority to make it.

7.3 **One review before publication.** Every Campaign is reviewed by a person against Dono's publication requirements before it can be published, as described in the Verification Notice. **Publication means only that the Campaign met those requirements. It is not an endorsement, guarantee, audit or certification** of the Campaign, its claims, its future conduct or the authenticity of any document, and no part of the Platform presents it as one.

7.4 **The Campaign Owner controls the Campaign.** Funds must be raised for activity owned, approved, controlled and delivered by the Campaign Owner or, for a Society Campaign, by the Society. Campaign funds and any retained funded property or output belong to the Campaign Owner or Society under the Ownership Statement. This does not prevent third parties benefiting from an eligible official Society initiative under clause 8.4, but the Campaign may not operate as a pass-through.

8. Campaign rules and categories

8.1 Campaigns must not involve: misleading information; fraud; plagiarism; illegal activity; copyright infringement; false claims of affiliation; duplicate or deceptive campaigns; or any prohibited category.

8.2 **Permitted purposes.** Campaigns are limited to **personal, community, educational and student-society purposes** connected with the Campaign

Owner's own activity as a student or student group. These include: academic research; educational or academic projects; project-related travel; expeditions and fieldwork; society events; society equipment and activities; and the activities of religious and cultural societies.

8.3 Commercial fundraising is not permitted. Dono does not publish a Campaign operated wholly or mainly for the purposes of a trade, business, craft, profession or entrepreneurial venture. Dono may in future support commercial campaigns under a separate legal framework with its own onboarding, trader declarations, business terms, tax warnings and consumer and marketing compliance provisions; **until that framework exists, commercial fundraising is not available.** No Campaign may offer a reward, product, service, financial return, repayment, priority access, discount, equity, securities, tokens, revenue share or any other consideration or inducement.

8.4 Society-purpose and third-party fundraising rule. A Society Campaign is eligible only where its primary purpose advances the activities, members or legitimate objectives of that Society. The fact that third parties also benefit does not make it ineligible. A Campaign whose primary purpose is to benefit people or organisations outside the Society is prohibited during beta **unless it is an official Society initiative, formally approved under the Society's rules, that directly furthers the Society's charitable, educational, sporting, cultural or community mission and is controlled and delivered by the Society rather than operating as a pass-through.**

Subject to that official-initiative exception, the following are prohibited:

(a) fundraising for another individual, household, group or organisation; (b) fundraising for a registered charity, a charitable cause, or any purpose that is charitable in substance rather than funding the Campaign Owner's own activity; (c) fundraising whose primary purpose is to benefit the general public or a section of the public without directly furthering the Society's own mission through an official Society initiative; (d) pass-through campaigns, where funds or funded assets are intended to be transferred onward to a third party; and (e) campaigns where the funded property or output is intended to become the property of anyone other than the Campaign Owner or their Society.

Worked examples. *Permitted:* a Society buying its own stage lighting; a Society running its own cultural festival; a sporting Society delivering an approved community coaching programme as part of its mission; or a conservation Society running its own approved public conservation project. *Not permitted:* collecting money to pass directly to a named charity; buying equipment for an outside organisation where the Society does not itself control and deliver the initiative; raising money for a fellow student's personal costs; or acting only as a payment conduit for disaster relief.

A campaign is **not** prohibited merely because the Campaign Owner's own activity happens to fall within a field the law also treats as charitable — for

example education, research or the environment. The test is who the money and the funded assets are for, not what subject the activity concerns.

8.5 Other prohibited categories: alcohol-related expenditure; political campaigning; investments, loans, financial products, equity or any financial return; illegal or regulated goods or conduct; tuition fees; rent; ordinary living costs; personal hardship; medical expenses; legal expenses; retrospective reimbursement; raffles, lotteries and prize draws; pooled funds, community funds, or any arrangement under which Dono would receive or hold money; and fundraising for or for the benefit of any person or organisation subject to UK financial sanctions.

8.6 Declarations and checks. At creation the Society must declare: the Society activity, member interest or legitimate objective advanced; whether any charity, community organisation or third party is involved or will benefit; who receives the funds; who controls delivery; who owns anything purchased; the Society approval relied on; and whether the Campaign is run for a trade or business. Third-party benefit triggers review against clause 8.4 but is not an automatic refusal. **Recurring donations and matched-funding windows are not features of the Platform** and no Campaign may offer them.

8.7 Dono may amend these categories in accordance with clause 30.

9. What the pre-publication review does and does not confirm

9.1 The review confirms only that a Campaign met the publication requirements described in the Verification Notice. It does **not** verify campaign statements, the authenticity of documents, the accuracy of costs, the viability or likely success of the Project, the future conduct of the Campaign Owner, or institutional endorsement. **We carry out reasonable checks but cannot guarantee the accuracy, legality or success of any Campaign.** Donors must form their own judgement.

10. Campaign Owner obligations, evidence and closure

10.1 Campaign Owners must: use funds only in accordance with clause 14 and the applicable Campaign Terms; keep records and submit required evidence; publish updates; notify Dono of Material Changes before implementing them; respond within ten Working Days unless otherwise stated; cooperate with refund requests; and cooperate with investigations.

10.2 **Evidence is private.** Receipts and evidence are submitted privately to Dono and are **not** published to Donors, because they routinely contain personal data. Before uploading, a Campaign Owner must redact personal data that is not needed to verify the purchase. The Privacy Notice explains what Dono does with receipts and how long it keeps them. The Campaign page shows a **neutral lifecycle state only** — for example *funding open*, *funding closed*, *evidence submitted*, *evidence outstanding*, *evidence overdue*, *closed* — which is a record of where the Campaign has reached

and **not** a statement that goods were delivered, prices were reasonable, funds were used properly or documents are genuine.

10.3 Closure Statement.

(a) **Deadline.** The Campaign Owner must submit a Closure Statement within **30 days** after all Campaign funds have been spent or otherwise dealt with under these Terms. Dono sends reminders before and on the deadline. (b) **Minimum contents:** how funds were used; a final expenditure breakdown; copies of receipts or invoices where required; an explanation of any variance from the original campaign; confirmation of how any Surplus Funds were dealt with under clause 14.5; and any other information Dono reasonably requests. (c) **Review.** Dono reviews a complete Closure Statement within **30 days** against a published reviewer checklist, and records the reviewer, the decision, the reasons and the date. (d) **One cure cycle.** Dono may reject a Closure Statement only where required information is missing, evidence is incomplete, expenditure appears inconsistent with the Campaign, there are reasonable grounds to suspect fraud or misuse, or clarification is reasonably required. The Campaign Owner is given **one opportunity to cure**, with a stated deadline. (e) **Administrative closure.** If Dono does not notify acceptance or rejection within 30 days of receiving a complete Closure Statement, the Campaign is **administratively closed**. This is labelled prominently as procedural. **Administrative closure records only that Dono did not complete its review in time. It is not a finding that the Closure Statement was adequate, that funds were used properly, or that the Campaign Owner complied with these Terms**, and it does not prejudice a Donor's rights, later review, correction of the record, or any investigation. (f) **Notifications and appeal.** Donors are notified when a Campaign closes and of the closure outcome. A Campaign Owner may appeal a rejection under clause 8 of the Community Guidelines.

Acceptance or administrative closure ends update obligations. Evidence, refund, cooperation and investigation obligations continue under clause 31.

Part 5 — Donations

11. Making Donations

11.1 Donations are processed by the Payment Provider and charged when you confirm. Donations are collected even if the funding target is not met. Fees apply as described in clause 16.

11.2 Donors receive an on-screen receipt and an email confirmation identifying the Campaign, the Campaign Owner, the Recipient, the amount, Dono's fee, the amount expected to reach the Campaign, and the version of each applicable document. It is a donation confirmation — **not** a charitable tax receipt and not a VAT invoice. Dono does not claim Gift Aid. A Campaign's description does not make the Campaign Owner a charity or make a Donation tax-deductible.

11.3 Hiding your name. A Donor may hide their name from public display on the Platform. The donation amount is still shown. The label "hide my name" is used rather than "anonymous", and the re-identification risk is explained at the point of selection. **This hides your name on Dono's public pages. It does not hide information the Payment Provider makes available to the Recipient, or to card networks, banks or authorities.** Because Donations are charged directly to the Recipient's Connected Account, the person or Society operating that account can see the transaction details the Payment Provider shows them, which may include your name. **Dono cannot guarantee your name is hidden from the account holder.** Dono itself always holds your name against the payment and does not disclose it to the Campaign Owner as a dispute-resolution step (clause 25).

11.4 Age at checkout. You must be **18 or over** to donate. Before payment you must confirm: *"I confirm that I am 18 years of age or older and have the legal capacity to enter into this agreement."* This is a self-certification, not a verified age check. If we reasonably believe a Donation was made by a person under 18, **we may cancel or refund it**, and a parent or guardian may contact us at clause 1.2 and we will treat it as a refund request under the Refund and Dispute Policy.

11.5 What checkout must show you. Payment cannot proceed unless checkout displays a **"You're donating to"** panel containing:

(a) the Campaign Owner's legal name; (b) their legal status (individual student, unincorporated society, incorporated society, company or other); (c) any representative acting on their behalf, named; (d) the holder of the Connected Account that will receive the funds; (e) where applicable, who will own property or assets purchased with the Donation; and (f) a statement that Dono provides the Platform and acts only in the role described in these Terms.

If any mandatory field is missing, payment is blocked. **The exact information displayed is stored with the transaction and the acceptance record** so that it can be audited later.

Society example: "Campaign: Equipment Fund 2026. Campaign Owner: Oxford Robotics Society (unincorporated student society). Responsible Representative: Alice Smith, acting for the Society. Funds paid to: the Connected Account held by Alice Smith for the Oxford Robotics Society. Equipment purchased will belong to: Oxford Robotics Society. Dono provides the platform and is not a party to your donation contract."

12. Nature of a Donation; how the contract is formed

12.1 A Donation is a **conditional contribution** to the stated campaign purpose — not an unconditional gift, an investment, a loan, equity, a payment for goods or services, or a guarantee of any outcome.

12.2 Formation. By publishing a Campaign, the named Campaign Owner makes a **standing offer** to accept eligible contributions on the terms shown

on the Campaign page and in these Terms, and **appoints Dono as its disclosed agent** for the sole purpose of presenting that offer and communicating acceptance on the Campaign Owner's behalf. **Your contract with the named Campaign Owner is formed at the moment the Payment Provider confirms that your payment has succeeded.** Dono then displays a receipt and sends a confirmation email. **The receipt and the email are evidence of the completed transaction. Neither is a condition of the contract, and failure or delay in delivering either does not affect formation.**

12.3 Dono is not a party to that contract. Dono acts solely as the Campaign Owner's disclosed agent for the purpose of forming it, and under the limited refund mandate in clause 13. Dono does not receive, hold, safeguard or control the funds; payment services are provided by the Payment Provider.

12.4 Three relationships arise:

(a) **Donor and Campaign Owner** — the conditional contribution. The Campaign Owner must use the funds only for the stated purpose and honour the published refund triggers. (b) **Donor and Dono** — the Donor agrees these Terms and the Donor Terms for use of the Platform. (c) **Campaign Owner and Dono** — the Campaign Terms govern the Campaign Owner's use of the Platform. **The Campaign Owner is Dono's customer for the platform service in every case**, whether or not a Donor chooses to cover Dono's fee.

12.5 A Donation is not automatically repayable because a Donor is dissatisfied with an outcome, and is not necessarily tax-deductible.

13. Refunds and Dono's refund mandate

13.1 Dono operates an internal refund and appeal process, set out in the **Refund and Dispute Policy**, which governs all refund matters.

13.2 Dono decides; Dono may execute. Dono determines whether, under the Platform's rules, a refund is required, its amount and the appropriate remedy. **By accepting these Terms, the Campaign Owner and the Recipient irrevocably appoint Dono as their authorised agent, for the sole and limited purpose of administering the contractual refund process, to instruct the Payment Provider to reverse a charge created through the Platform, in whole or in part, from the Connected Account.** This mandate:

(a) is limited to refunds determined under these Terms and the Refund and Dispute Policy, and may be used for no other purpose; (b) does not permit Dono to receive, hold, withhold, delay, divert or apply any funds, and does not give Dono access to the Connected Account for any other purpose; (c) is exercised only after the Campaign Owner has been notified of the request and given the opportunity to respond required by the Refund and Dispute Policy, except where a Donation must be reversed urgently to prevent fraud, unauthorised payment or harm; (d) is disclosed to Donors in the Donor

Terms and to Campaign Owners in the Campaign Terms, and is a condition of using the Platform; and (e) does **not** displace the Campaign Owner's own obligation to execute a refund promptly, nor make Dono liable to fund one; and (f) **never results in Dono receiving money**. The only movement it can cause is from the Connected Account back to the Donor.

13.3 Appeal after the event. A Campaign Owner may appeal Dono's refund determination within **ten Working Days of being notified**, under clause 8 of the Community Guidelines. Because a refund may already have been executed, an appeal that succeeds results in correction of the record and, where appropriate, Dono restoring its own fee and taking any other step within its power. **Dono does not undertake to reverse a completed refund.**

13.4 Limits, stated honestly. A refund can only be executed to the extent the Connected Account has, or subsequently receives, sufficient funds. Executing a refund against an insufficient balance may create a negative balance for which the Recipient is responsible to the Payment Provider. **Dono never pays refunds from its own funds, does not guarantee recovery, and cannot recall money already paid out and spent.**

13.5 Nothing in these Terms removes a Donor's statutory rights, rights against their card issuer, or chargeback rights.

14. Use of funds; changes; surplus

14.1 Use of funds. Campaign funds may be used only for the purposes represented to Donors, including approved line items and reasonable directly related expenditure. Funds may be moved between line items within the same stated purpose.

14.2 Partial funding. If a Campaign does not meet its target the Campaign Owner decides whether the Project can proceed with the amount raised, provided it can still be meaningfully used for the stated purpose; otherwise refunds must be arranged.

14.3 Material Change — definition. A **Material Change** is any change a reasonable donor would consider important when deciding whether to donate.

14.4 Material Change — categories, notice and the spending restriction.

(a) **Minor changes** — no donor consent required (supplier changes, a different manufacturer, colour changes, small budget reallocations, timetable changes). (b) **Material but equivalent changes** — the change must be **submitted to Dono before it is implemented**; new Donations to the Campaign are suspended; each affected Donor is notified individually and has **14 days to request a refund** (different equipment, a different contractor, significant budget reallocation, a different venue). (c) **Fundamental changes** — the Campaign is cancelled and refunds are required unless Donors expressly opt in (changing the purpose entirely,

changing the Campaign Owner or the Society, or applying funds to operating expenses instead of the advertised project).

Restriction on spending. From the moment a Material Change arises until the refund window closes, **the Campaign Owner is contractually prohibited from spending the affected funds.** Dono cannot freeze funds or payouts and does not claim to be able to. Breaching this obligation may lead to suspension or removal from the Platform, a referral to the Campaign Owner's Institution under clause 23.7, a report to the police or another authority, and legal action by affected Donors. **Where the money has already been spent or dissipated, a refund depends on what the Campaign Owner still holds or can pay; Dono cannot guarantee it.** A Material Change may not be made after funds have been spent in order to regularise that spending.

14.5 Surplus Funds. Any amount that cannot reasonably be used for the stated purpose must be refunded. **There is no de minimis threshold: every penny of unused money is refundable.** Campaign Owners must therefore request an accurate target at the outset.

(a) **Automatic allocation.** Dono refunds surplus in **reverse chronological order** — the most recent Donor first, up to the amount they donated, then the next, until the surplus is exhausted. Surplus is not distributed proportionately and no Donor is guaranteed an automatic share. This is disclosed at checkout and in the Closure Statement. (b) **Individual right to claim.** Independently of (a), **any Donor to a Campaign with unused funds may request a refund** of their share of those funds under the standalone ground in the Refund and Dispute Policy, whether or not the automatic allocation has reached them. Dono maintains a ledger of every surplus refund so that no amount is refunded twice. (c) **Over-funding.** A Campaign cannot be funded beyond its target. Once the target is reached the Campaign stops accepting Donations, and where a Donation would take a Campaign past its target the amount offered is reduced to the amount still needed, and the Donor is shown that reduced amount before confirming. **If, despite this, a payment completes that takes a Campaign past its target — for example because two payments were authorised at the same moment — the excess is refunded in full, with no de minimis,** and Dono's fee on the refunded portion is reversed.

14.6 Funds not used for the stated purpose must be refunded in full. Where funds have been applied to something outside the stated purpose, or a purpose not strongly related to it, the whole of the affected amount is refundable. There is no allowance for small deviations.

Part 6 — Payments

15. Payment processing and the Recipient model

15.1 Payments are processed using **Stripe Connect Standard accounts and direct charges.** Donations are paid to the Recipient's Connected

Account. The Payment Provider charges its processing fees to the Connected Account, performs KYC on Connected Account holders and manages payouts. Dono's fee is collected as a Payment Provider application fee.

15.2 Who the Recipient is. The Recipient is expected to be the Campaign Owner. For an individual Campaign, the Student holds the Connected Account. For a Society Campaign, the Connected Account is held by the Society where it is incorporated, and otherwise **by the Responsible Representative, who holds and controls it for the Society and not for themselves.** Donations, and anything bought with them, are raised and held **for the benefit of the Society**, not the representative personally.

15.3 Split roles are exceptional. Dono expects the Campaign Owner, the Recipient and the owner of any funded property to be the same person or Society. Where there is a genuine operational need for them to differ, Dono may permit it only under an **express written agreement signed by every affected party** before publication, recording: the intended beneficiary of the Donations; ownership of any purchased assets; permitted use of the funds; responsibility for refunds; record-keeping obligations; succession where office-holders change; and responsibility for disputes. All roles are shown at checkout under clause 11.5.

15.4 The Recipient confirms that they are authorised to receive the funds and to run the Campaign, and that they are responsible for refunds, chargebacks and any negative balance on their Connected Account. One legal regime applies to all Recipients.

15.5 Refund execution. The Recipient must execute promptly any refund Dono determines is due. In addition, Dono may itself instruct the Payment Provider to reverse the charge under the mandate in clause 13.2. Separately, **Dono reverses its own fee** where the Refund and Dispute Policy requires — that is Dono returning its own revenue through the application-fee mechanism.

15.6 Loss allocation. Under the live configuration: the **Payment Provider is the losses collector** and absorbs negative balances that cannot be recovered from the Connected Account after recovery attempts; the **Connected Account is charged the Payment Provider's processing and dispute fees**; and the **Connected Account owns any dispute and is responsible for submitting evidence.** Dono notifies the Connected Account holder as soon as it becomes aware that a dispute has been opened, alerts them before the card-network deadline, and provides the records it holds. Dono is not the party the card scheme deals with.

15.7 Dono cannot hold or delay a payout. Dono has no ability to pause, hold, delay or redirect a payout from a Connected Account and claims no such power anywhere in these Terms.

15.8 The Payment Provider's own terms and privacy policy also apply to Connected Account holders and to Donations. Dono does not receive or store full card numbers, expiry dates or security codes.

16. Fees

16.1 Dono has two fixed fee schedules. A beta/demo Campaign is charged **2% + 20p per Donation**, displayed as **“Payment processing fee (Dono)”**. A production Campaign is charged **5% + 20p per Donation**. The applicable schedule is fixed when the Campaign is approved, shown before payment and stored with every Donation.

16.2 The applicable fee is charged to the Campaign Owner by deduction from Campaign proceeds unless the Donor actively chooses to cover it. It is the same **regardless of the card, payment method or country used**, is Dono's revenue and is collected as a Payment Provider application fee. **“Payment processing fee (Dono)” means Dono's fixed charge for enabling and administering the payment flow; it is not Stripe's actual processing charge or a pass-through of that charge.**

16.3 The Payment Provider's cost is separate. The Payment Provider charges the Connected Account its own processing cost, which varies by payment method and any currency conversion and which the Payment Provider may change. That cost is **never charged to the Donor** and is never presented as a Donor-payable amount. Checkout shows it as a deduction from the amount reaching the Campaign, identified as an estimate where the exact figure is not known before confirmation. A card issuer may separately charge its own cardholder a foreign-transaction fee; that charge is not received by Dono or the Campaign Owner.

16.4 Fee cover. A Donor may choose to add the **applicable Dono fee** to their payment so that it is not deducted from their contribution. Fee cover is optional, unticked by default and charged only if actively selected. It is limited to **2% + 20p for a demo Campaign or 5% + 20p for a production Campaign**. It never includes the Payment Provider's actual processing cost and does not make the Donor the customer for Dono's service.

16.5 Total shown before you confirm. Before the Donor confirms, checkout shows the total to be charged, the intended Campaign contribution, the applicable Dono fee and schedule, any fee cover selected, the estimated Payment Provider cost and the expected amount reaching the Campaign. **The Donor is never charged more than the total they confirmed.** For demo Campaigns Dono's line is **“Payment processing fee (Dono)”**; Stripe's separate estimated cost is labelled **“Stripe processing cost (paid by the campaign)”**.

16.6 VAT. Dono is not registered for VAT. No amount shown anywhere on the Platform includes or is described as VAT, and Dono does not issue VAT invoices. The total shown to a consumer is the total amount payable. If Dono becomes required or chooses to register for VAT, prices shown to consumers will include applicable VAT from the effective date of registration, Dono will account for that VAT, and will issue VAT invoices and credit notes where the law requires. Dono, not a User, is responsible for any VAT on Dono's fee.

16.7 Fee changes. Dono may change its fee. **A change applies only to Campaigns created after the change takes effect and to Donations made after that date. Existing Donations are never repriced, and a live Campaign continues on the fee in force when it was created** unless the Campaign Owner agrees otherwise. Clause 30 governs notice.

16.8 Fee treatment on a refund is in the Refund and Dispute Policy. Dono records its fee revenue separately from campaign money and from the Payment Provider's processing costs, and provides the Campaign Owner with a statement of Dono's fee and any reversal.

Part 7 — Community, content and safety

17. Comments

17.1 The Platform has no private messaging. **Commenting is restricted.** To post a comment you must hold an account, be 18 or over, and be an **approved member of the Society that owns the Campaign.** You may apply to join a Society; approval is the Society's decision, not Dono's. Comments are **plain text**, and are **published immediately and moderated afterwards. Comments may not contain links, hyperlinks, images or attachments;** the editor and the server reject them. Comments always display a name, so a Donor who hid their name and then comments identifies themselves as a supporter.

17.2 **Before publication,** comments pass an automated keyword and pattern filter that blocks defined categories of prohibited content. The filter is a first line of defence, not a substitute for review, and no claim is made that it catches everything.

17.3 **Every published comment carries a visible Report control,** and anyone — including a person without an account — may report a comment. A report creates a moderation case.

17.4 Users may edit or delete their own comments; the interface shows when a comment was edited. Campaign Owners may remove a comment from their own Campaign but may not edit another user's wording. Dono retains a private moderation copy and audit log and may restore a comment where removal is misused.

17.5 **Dono may remove or hide any comment, suspend commenting privileges, or restrict or suspend an account, at its discretion and without prior notice,** where necessary for safety, legal compliance or enforcement of these Terms, the Community Guidelines or applicable law. Repeat breaches may lead to loss of commenting privileges or suspension. Moderation decisions may be appealed within ten Working Days under clause 8 of the Community Guidelines.

18. Community standards and illegal content

18.1 All Users must comply with the **Community Guidelines**, which govern content and conduct and which prohibit (among other things) illegal activity, terrorism content, child sexual exploitation and abuse content, fraud, misleading fundraising, harassment, discrimination, impersonation, spam, sexual content, exploitation, encouraging suicide or serious self-harm, intellectual-property infringement, unauthorised institutional branding, false affiliation, ban evasion and abusive reporting.

18.2 **How Dono deals with illegal content.** Dono prohibits every category of priority illegal content in the Community Guidelines; reviews every Campaign and its media before publication; provides a report control on every item of user content and a reporting route available without an account; triages reports by urgency; **acts swiftly to remove or restrict content once it becomes aware that the content is illegal or breaches these Terms**; records its decisions and reasons; allows appeals and restores content where a decision is reversed; and reports detected child sexual exploitation and abuse content to the National Crime Agency. Dono does not use automated technology to make final moderation decisions; automated filtering blocks defined categories before publication and risk signals may prioritise a case for human review. Introducing automated decision-making would require a prior risk and policy review and a change to these Terms.

18.3 **Response targets, not guarantees.** Dono *aims* to meet the response times published in the Community Guidelines. They are service targets. Urgent matters — an immediate risk to a person, child safety, or suspected illegal content — are handled straight away and outside those targets.

19. User Content

19.1 **Licence.** You retain ownership of your Content. You grant Dono a worldwide, non-exclusive, royalty-free licence to host, store, reproduce, transmit, display, format, compress and otherwise process your Content **solely as necessary to operate, secure, moderate and improve the Platform and provide the Services. "Improve" does not include training any artificial-intelligence or machine-learning model on your Content, and does not include unrelated promotional use.** Dono does not use user Content to train AI models; any change of position would go through the controlled change process in clause 30 before the processing starts. The licence lasts only while your Content remains on the Platform, plus any reasonable period required for backups, legal obligations or dispute resolution. Dono may permit its service providers to exercise these rights solely on Dono's behalf.

19.2 **Promotional use is opt-in.** If you opt in, Dono may use your campaign content in promotional materials in accordance with the consent you give, which identifies the channels and the period. You may withdraw at any time; we remove the material from channels we control **within 30 days** and tell you at the point of opting in that we cannot recall material already printed, distributed or reposted by others. There is no blanket moral-rights waiver.

19.3 Content warranty. By uploading Content you warrant that you own it or have all rights, licences, permissions and consents necessary to upload it and allow Dono to use it as permitted, and that it does not infringe any intellectual property, confidentiality, privacy or other right. Where Content includes identifiable individuals you must have any permissions reasonably required. You may refer to an institution by name where factually accurate but must not use its logo, crest or protected branding without authority. Dono may request evidence of your rights and remove Content if you do not provide it within a reasonable time.

19.4 Rich media and links.

(a) **Every Campaign, including its images, documents, video and external links, is reviewed by a person before it is published**, and is re-reviewed after any change. A reviewer records that a video was reviewed in full. (b) **Campaign videos must be uploaded or linked through the Platform's own controls.** External links on Campaign pages must use HTTPS, the approved destination is stored, the link is re-reviewed whenever it is edited, and Dono may disable a link immediately. (c) **Comments permit no attachments, no images and no links** (clause 17.1). (d) Dono applies automated malware and image-safety scanning to uploaded media and periodically checks approved link destinations for redirects or changes. These controls operate whenever the related media or link feature is available on the Platform.

20. Intellectual property and legal notices

20.1 The Platform, the Dono name and branding, and Dono's software belong to Dono or its licensors. Students and Societies retain their own intellectual property.

20.2 **One notice-and-action route.** Copyright, trade-mark, impersonation, defamation and privacy complaints are all handled through a single legal-notice process. To submit a notice, use the report control on the relevant Content, the reporting route available without an account, or joindono.team@gmail.com, giving: your name and contact details; identification of the specific material and its location; the right you claim and the basis of the claim; for intellectual-property claims, a statement of your authority to act; and a statement that the information is accurate.

20.3 **What Dono does with a notice.** Dono acknowledges the notice, triages it by urgency, and assesses it against these Terms, the Community Guidelines and applicable law. Dono may **temporarily restrict or remove** material while it assesses a credible notice. Dono notifies the affected User where lawful and safe, and **allows a counter-notice** where the affected User says the material is lawful and they have the right to publish it; where a counter-notice is received and the claim is contested, Dono may restore the material and tell both parties that the dispute is between them. Dono applies **repeat-infringer controls** and also acts against **repeated abusive or bad-faith notices**. Dono preserves the notice, any counter-notice, the material, the decision and its reasons. Where a complaint concerns defamation, Dono follows the operator's procedure under section 5 of the

Defamation Act 2013, records each statutory step and deadline, and takes specialist advice where necessary. **Dono cannot and does not determine complex legal disputes, and does not guarantee any outcome.**

Part 8 — Privacy

21. Personal data and cookies

21.1 The data controller is **Amrit Kaur Rooprai trading as Dono**, of 37 St Giles', Oxford OX1 3LD. The **Privacy Notice** governs what personal data we process, why, our lawful bases, our service providers, international transfers and safeguards, retention, and your rights including how to complain. The **Cookie Notice** governs cookies, similar technologies and analytics, and how consent works. **Analytics is off unless you consent, and you can withdraw consent at any time through Privacy and analytics settings in the footer of every page.**

21.2 The Payment Provider processes personal data for payment processing, identity verification, fraud prevention and regulatory compliance, acting for many of those activities as an **independent data controller** under its own privacy notice. Dono discloses limited personal data to the Payment Provider where necessary to provide the Platform.

21.3 **Institutional disclosure.** Dono does not routinely share identifiable user or donor data with universities or other institutions. Disclosure is limited to the circumstances set out in the Privacy Notice and clause 23.7 and is governed by Dono's **Institutional Referral Protocol**.

Part 9 — Enforcement

22. Suspension and restriction

22.1 Dono may warn, restrict, suspend or ban a User, or restrict features, where it reasonably considers there has been: false account or campaign information; fraud or suspected fraud; failure to provide evidence, updates, a Closure Statement or responses; misuse of funds; spending in breach of clause 14.4; an unpaid refund a Donor is entitled to; a Community Guidelines breach; intellectual-property infringement; harassment or impersonation; suspension by the Payment Provider; loss of eligibility; a legal or safety requirement; or ban evasion.

22.2 **Safeguards.** We separate **emergency suspension** — immediate action for safety, fraud, legal or payment-capability reasons, which takes effect when applied — from ordinary breach. For ordinary breach we act on reasonable grounds and proportionately, give notice and reasons unless prohibited, allow a cure where the issue is remediable, review at defined intervals, and allow an appeal under clause 8 of the Community Guidelines. **Any period for you to respond or appeal starts when you are notified.**

We tell you what happens to campaigns, payouts, records and donor communications.

23. Campaign removal and institutional reports

23.1 Reports from institutions. Verified representatives of an Institution may **report** campaigns, accounts or content they believe breach these Terms, the Community Guidelines, the law, intellectual-property rights, privacy rights or safety requirements. **A report is not a removal instruction.**

23.2 Before non-emergency action Dono takes reasonable steps to verify the requester's authority and records who made the request and on what basis.

23.3 Dono makes its own decision on the evidence, these Terms, the Community Guidelines and the law. Dono is not obliged to follow an Institution's wishes.

23.4 For imminent risk of harm, court orders, police requests or legal obligations, Dono may act immediately before completing the normal review.

23.5 Unless prohibited by law or where it would create a safety risk, Dono notifies the Campaign Owner, explains the action and the ground, and allows them to respond and appeal under clause 8 of the Community Guidelines.

23.6 Evidence preservation. Even where Content is removed, Dono retains what is reasonably necessary for investigations, appeals or legal obligations — the content identifier and URL, account and campaign identifiers, timestamps, the snapshot needed to understand the decision, the actions and reasons, communications, relevant access and transaction records, and any external referral reference. Access is tightly limited and we do not create unnecessary copies of unlawful material.

23.7 Referrals to an Institution are made only under Dono's **Institutional Referral Protocol**, which is the single source of the rules for such referrals and which requires: a seriousness and necessity test; approval by an authorised decision-maker; disclosure of the minimum information necessary; clear labelling of anything unproven as an allegation and not a finding; secure transmission; notice to the affected User unless notice would prejudice an investigation or breach a legal obligation; a correction and appeal route; and a retained record.

23.8 Institutions may confirm factual matters about affiliation. Whether Content stays on the Platform is a moderation decision that remains Dono's. Institutions have no contractual right to require removal.

24. Investigations, financial crime and sanctions

24.1 The Payment Provider is responsible for payment processing, KYC, payment-level sanctions screening and payment-fraud detection under its own policies. Dono is responsible for campaign moderation, eligibility checks, enforcing prohibited activities and monitoring for suspicious

platform behaviour. **UK financial-sanctions obligations apply to Dono independently of the Payment Provider**, and Dono maintains its own proportionate risk-based controls set out in its **Financial Crime and Sanctions Policy**.

24.2 Dono may, on a risk-based basis: refuse, suspend or remove campaigns, accounts or donations where fraud, sanctions concerns or other unlawful activity is suspected; request and review information; restrict visibility during an investigation; refer matters to an Institution under clause 23.7; report suspected crime to the police or another authority; escalate a suspected sanctions breach to OFSI where legally appropriate; and cooperate with the Payment Provider and law enforcement. Nothing here makes Users alone responsible for sanctions or fraud compliance, and nothing suggests the Payment Provider discharges Dono's own responsibilities.

25. Disclosure of identity

25.1 Dono **discloses personal data only where required or permitted by law**. Dono does **not** disclose one User's identity to another private User as a standard dispute-resolution step. A party who needs another User's identity for legal proceedings should use appropriate legal channels.

25.2 Any exceptional disclosure must be approved following legal review, satisfy UK GDPR, be limited to the minimum necessary, be supported by a documented necessity and proportionality assessment, and be notified to the affected User where lawful.

25.3 This clause governs what **Dono** discloses. It does not affect what the Payment Provider makes available to a Connected Account holder in the ordinary course of processing a payment (clause 11.3).

Part 10 – Liability

26. Dono's role and no guarantees

26.1 Dono hosts Campaigns, checks student eligibility as described in clause 6, reviews Campaigns before publication, moderates content, and operates an internal refund process using the Payment Provider for payments. **We carry out reasonable checks but cannot guarantee the accuracy, legality or success of any Campaign.** We do not promise that fraud will be prevented, that the Platform will be uninterrupted or error-free, that Content will never be removed in error, or that any Donation will achieve any outcome. Dono does not hold Donations and does not guarantee that a refund can be recovered.

26.2 **Insurance is limited and is not a guarantee.** Dono holds technology professional-indemnity, cyber/data, cyber-crime, legal-protection and crisis-containment insurance, subject to its policy limits, excesses, conditions and exclusions. The current schedule does not show separate public-liability or

cyber business-interruption cover. The policy is not a reserve or compensation scheme, does not guarantee a refund or payment of a claim, and does not reduce your legal rights or Dono's legal obligations.

27. Limitation of liability

27.1 Non-excludable liabilities. Nothing in these Terms excludes or limits liability for: death or personal injury caused by negligence; fraud or fraudulent misrepresentation; breach of the terms implied by sections 49 and 51 of the Consumer Rights Act 2015 in a consumer contract; liability under Part I of the Consumer Protection Act 1987; any liability that cannot lawfully be excluded or limited; or your mandatory statutory rights as a consumer. Nothing in these Terms excludes or limits liability for a breach of data-protection law beyond what that law permits.

27.2 How your status is determined. Your status follows the facts, not a label. **You are a consumer** if you are acting wholly or mainly outside your trade, business, craft or profession. This ordinarily includes Donors, account holders, **individual student Campaign Owners**, and **an individual acting as a Responsible Representative of a Society**. Running a Campaign is not a business activity merely because it raises money.

27.3 Three categories of user.

(a) **Consumers.** We are responsible for loss you suffer that is a **reasonably foreseeable** consequence of our breach of these Terms or our failure to use reasonable care and skill. Loss is reasonably foreseeable if it is obvious that it will happen, or if at the time you accepted these Terms both we and you knew it might happen. **There is no monetary cap on our liability to a consumer, and no consumer is subject to any indemnity.** We are not responsible for loss caused solely by another User where we have not breached a legal duty, or for events outside our reasonable control despite reasonable continuity measures.

(b) **Non-business organisations — Societies and similar non-commercial groups.** A Society is **not** treated as a business user merely because it is an organisation. Subject to clause 27.1 and to the extent permitted by law, we are not liable to a Society for loss of profits, loss of revenue, loss of anticipated donations, loss of goodwill or reputation, loss of opportunity or business interruption, in each case whether direct or indirect; and our total aggregate liability to a Society in any twelve-month period is limited to the greater of **£2,500** or **the total fees Dono received in connection with that Society's Campaigns in the twelve months before the claim arose**. Where a claim is brought by an individual Responsible Representative in respect of their own loss as a consumer, paragraph (a) applies to that claim instead.

(c) **Business users** — an incorporated entity acting commercially, an Institution, or an individual or organisation genuinely acting for the purposes of a trade, business, craft or profession. Subject to clause 27.1 and to the extent permitted by law, we are not liable for indirect or consequential loss, loss of profits, loss of revenue, loss of goodwill or

reputation, loss of opportunity, loss of anticipated donations or business interruption, in each case whether direct or indirect; and our total aggregate liability in any twelve-month period is limited to the greater of **£1,000 or the total fees Dono received from or in connection with that user in the twelve months before the claim arose.**

27.4 Caps are per claimant. Any cap applies per claimant. Liability owed to one User does not reduce liability to another. All claims arising from the same or related facts are treated as a single claim. There is no shared pot.

27.5 Campaign responsibility. Campaign Owners are responsible for campaign content, how funds are used and refund obligations. Dono provides the Platform.

28. Indemnity

28.1 Consumers are subject to no indemnity. This includes Donors, individual student Campaign Owners and individuals acting as Responsible Representatives.

28.2 Narrow indemnity for non-consumers. A Society (and a business user under clause 27.3(c)) will, to the extent permitted by law, indemnify Dono against **third-party claims** actually brought against Dono that arise directly from: unlawful Content it published; infringement of a third party's intellectual-property rights by its Content; its fraud or dishonesty; its deliberate or reckless misconduct; or its breach of applicable law. It does not extend to anything else, and does not apply to claims arising from Dono's own act or omission. Liability under this clause is subject to the applicable cap in clause 27.3.

28.3 Conduct of a claim. Dono must notify the indemnifying party promptly, take reasonable steps to mitigate, give the indemnifying party the right to assume or participate in the defence with counsel of its choice, provide reasonable assistance, and not admit liability or settle in a way that increases their liability without their consent (not to be unreasonably withheld or delayed). Liability is reduced proportionately to the extent Dono's own act, omission or fault contributed.

28.4 Personal liability of a Responsible Representative is governed by clause 1 of the Society Campaign Terms and is not extended by this clause.

29. Force majeure

29.1 If an event outside Dono's reasonable control prevents performance, Dono will use reasonable efforts to minimise disruption and resume as soon as reasonably practicable. Affected obligations are suspended only for the duration of the event. Rights and obligations accrued before it, including refunds already due, are unaffected.

29.2 If the event continues for more than 30 days either party may terminate the affected agreement. Live Campaigns then close to new Donations; the Campaign Owner must still deal with funds already received under clause 14

and submit a Closure Statement; refunds already determined remain payable; and Dono reverses its fee on any Donation for which it has not been able to provide the platform service.

Part 11 — General

30. Changes to these Terms

30.1 Reasons. We change these Terms only where reasonably necessary: to comply with law or regulatory guidance; for security, fraud or abuse prevention; because a payment provider, supplier or third-party service requires it; to add, change or remove a feature; to correct errors or ambiguities; or to reflect a change in the cost of providing the Services. We do not change the Terms "for any reason", and **no change will materially disadvantage you in relation to a transaction you have already entered into without your consent.**

30.2 Categories of change.

(a) **Service and operational changes** may take effect immediately or on reasonable notice; no express acceptance is required. (b) **Fee changes** follow clause 16.7: prospective only, existing Donations never repriced, live Campaigns grandfathered. (c) **Material contractual changes** — liability, refund rights, user obligations, suspension powers, dispute resolution, the refund mandate in clause 13.2, or anything else that materially affects your rights: we give at least **30 days' notice**, explain the reason, allow you to close your account before the change takes effect, grandfather existing contractual relationships where appropriate, and require **fresh express acceptance. Until you accept a material change, the affected features are unavailable to you and the previous version continues to govern your existing Campaigns and Donations.** We never rely on continued use alone to establish acceptance of a material change.

30.3 Emergency exception. We may change the Terms immediately where necessary because of law, a court order, regulatory action, a security vulnerability, fraud or prevention of harm, and will notify Users afterwards where practicable.

30.4 Protection of existing transactions. Changes do not alter completed donations, completed payments, rights already accrued or liabilities already incurred.

30.5 Version binding and archive. Every acceptance is permanently recorded against the exact version accepted and its timestamp. **Every historical version remains accessible**, and each Campaign and Donation remains linked to the versions in force when it was created.

30.6 Notice. We may notify you by email, in-app or dashboard notification, or (for non-material changes only) a website notice. We keep a versioned record of every notice.

31. Termination and wind-down

31.1 **You may close your account at any time**, subject to continuing obligations. Dono may suspend or terminate under Part 9, or on 30 days' notice where a service is withdrawn.

31.2 What happens on termination.

(a) **Donors.** Closing your account does not cancel a Donation already made or a contract already formed. Refund requests already submitted continue to be decided. Donation records are retained for the periods in the Privacy Notice because they evidence a completed transaction. (b) **Campaign Owners with no live Campaign.** Your account closes on the effective date. Campaign pages are archived under clause 31.3. (c) **Campaign Owners with a live Campaign.** The Campaign closes to new Donations on the effective date. You must still deal with funds already received under clause 14, execute any refund a Donor is entitled to, submit outstanding evidence and a Closure Statement, and continue to respond to Dono in respect of the obligations that survive under clause 31.5. Donors are notified. (d) **Society Campaigns.** Where a Responsible Representative's account closes, clause 6 of the Society Campaign Terms governs the transition. The outgoing representative remains responsible for transactions processed before the transfer. (e) **Content and licence.** The licence in clause 19.1 ends when your Content is removed, except for backups, legal obligations and dispute resolution. Comments may remain where removing them would break the sense of a public discussion; you may ask us to remove them. (f) **Data and evidence.** You may request a copy of your personal data and its erasure, subject to the exceptions in the Privacy Notice. For **30 days** after termination we give you a way to download the evidence and records you submitted. (g) **Outstanding obligations.** Where you have an unmet obligation — an outstanding refund, evidence or a Closure Statement — we will tell you before your account closes, and closing it does not discharge that obligation. **Where closing your account would leave you unable to execute a refund a Donor is entitled to, Dono may execute it under the mandate in clause 13.2.**

31.3 **Campaign page archival.** A Campaign page **does not remain publicly discoverable indefinitely. 24 months after a Campaign closes**, the page is archived: it is removed from browsing, discovery and search, is de-indexed, and unnecessary donor-identifying and sensitive personal information is removed from the public version. **A Campaign Owner may ask us to depublish or delete an archived page at any time**, and we will do so unless a legal, regulatory, fraud-prevention or dispute-resolution obligation requires otherwise. Dono retains only the minimum evidence necessary for those purposes.

31.4 **If Dono ceases to operate.** Dono maintains a written **Wind-Down Plan**. On a wind-down: new campaigns and new donations are disabled; Users are notified; outstanding refund determinations and complaints are completed or handed over; records are preserved or transferred as the Privacy Notice and the law require; Users are given a period to export their data and evidence where feasible; and the Information Commissioner's

Office and Ofcom are notified where required. **Funds already paid into a Connected Account are outside Dono's control. Dono cannot recover, redistribute or protect them, and they remain with the Recipient and the Payment Provider.** The Wind-Down Plan names authorised deputies who can act if the sole trader dies or becomes incapacitated.

31.5 Survival. The following survive termination: refund obligations and their execution; evidence and Closure Statement obligations; chargebacks and negative balances; payment obligations already accrued; intellectual-property provisions; cooperation with investigations; confidentiality; liability and indemnity provisions; and governing law and jurisdiction.

32. Governing law and jurisdiction

32.1 These Terms are governed by the law of England and Wales, and the courts of England and Wales have jurisdiction. If you are a consumer you may bring claims in the courts available under the mandatory law of the part of the UK or the country where you live, and Dono will not rely on this clause to remove mandatory local consumer rights.

33. Complaints and dispute resolution

33.1 Dono operates a **Complaints Policy** separate from the refund decision itself. Content and moderation complaints and appeals follow clause 8 of the Community Guidelines. Data-protection complaints follow the Privacy Notice. **All routes use the same address: joindono.team@gmail.com.** Dono operates a single public support address and does not maintain separate inboxes, ticketing systems or category queues.

33.2 Alternative dispute resolution. Each final response to a consumer complaint contains the alternative-dispute-resolution information required by applicable law. Dono does not represent that it participates in ADR where no legal, regulatory or contractual duty to participate applies.

34. General

34.1 If any provision is unenforceable, the remainder continues. A failure to enforce is not a waiver. You may not transfer your rights under these Terms without our consent, **except where applicable law permits the transfer of a claim or a statutory right.** Dono may transfer its rights and obligations to a successor that assumes all obligations and maintains equivalent protection, provided the transfer complies with data-protection and payment obligations and preserves your rights; we will give advance notice and you may close your account before the transfer, subject to accrued campaign obligations. Except as expressly stated, these Terms do not create third-party rights.

34.2 Contact. Amrit Kaur Rooprai trading as Dono, 37 St Giles', Oxford OX1 3LD. Everything: joindono.team@gmail.com.
